Incentive Calculation and Reservation

Specification System "Rated" Production:
Projected System Production (Per site resource):
Incentive Rate:
Project Reserved Incentive Amount: \$
If no incentive has been reserved, reason(s) for denial:

Terms of Incentive Reservation

This incentive reservation is based on information submitted by applicant in the Request for Renewable Energy Incentive Reservation. The incentive reservation shall remain valid until such time as the incentive has been applied for or 6 months from the date of reservation, whichever occurs sooner. Actual incentive amount may be less than that stated above if installed capacity differs from that described on the Request for Renewable Energy Incentive Reservation form. The incentive amount will not exceed that stated above without a new Request for Renewable Energy Incentive Reservation form and attachments.
